The high speed, high volume, A4 & A3 colour solution for workgroup printing

Super quick, highly versatile, very easy to use, the new C9600 is the best printer in its class for meeting the everyday printing demands of modern office life.

Super fast speed. Steadfast reliability.

Delivering 36 pages per minute (ppm) colour and 40ppm mono A4, the new C9600 is not only one of the fastest printers of its kind, it is also one of the most reliable. Market leading single-pass digital LED technology combined with a straight paper path ensures smooth handling across a wide range of paper types and formats. This is reflected in a highly impressive 150,000 pages per month duty cycle.

Professional colour. First time, every time.

When you need to make an impression, you can rely on the C9600 to show you in your true colours. ProQ2400 Multilevel technology produces subtler tones and smoother gradations of colour for impressive print quality results. Auto Colour Balance makes sure that those results remain consistent throughout the life of the printer. And a hard drive is also available to manage and store colour profiles for advanced colour matching.

Any document. Any size. Any format.

Booklets, business cards, 1.2m long banners, A3 or oversized A3 documents, with full speed double-sided printing – you can produce virtually anything on the C9600. Auto Media Detect ensures maximum efficiency when you need to print a range of documents of various sizes. There's even an optional Saddle-stitch Finisher that will fold, staple and hole-punch the results to give your documents that truly professional touch.

So simple. It's easy.

At OKI Printing Solutions, we aim to empower everyone who uses our printers to produce exceptional results: first time, every time. We call this commitment **Chromability™** – in house colour made easy, only from OKI Printing Solutions. You'll see evidence of this in our unique Template Manager software which makes it easy to create documents in a range of formats; in 'Ask OKI', a tab in your printer's driver which takes you to an information packed website specific to the C9600; and in the new graphical display panel which makes every operation clear and simple.
